Italian on Board

“sailing cruise, italian on board”

**Learn&Sail:** This is not a classic Italian language course! We use a new method of teaching which combines the importance of grammar, with cultural understanding and interactive activities while sailing on the Mediterranean Sea!

Classes are held on a sail boat where teachers remain on board for the whole duration of the lessons and afterwards, providing a full immersion experience for the students.

The **Course Structure** is programmed around the use of grammar explanations, authentic materials such as extracts from movies, music and publications or personal experiences and recommendations directly from southern Italian teachers.

The **Main Focus** of the course is to teach and train students with useful Italian expressions and slangs that will assist them once they will explore the places where the boat will moor.
